PROFILE

Analytical data analyst with experience in predictive modeling and business intelligence. Skilled in Python, SQL, and Power BI, translating complex datasets into actionable insights for business strategies.

WORK EXPERIENCE

DATA ANALYST

Insight Corp

March 2021 - Present

Analyzed large sales datasets to identify trends and insights. Built predictive models for customer behavior and campaign performance using Python and machine learning techniques. Created interactive dashboards and visualizations to support business teams in strategic decision-making. Collaborated with cross-functional teams to optimize data collection and reporting processes.

EDUCATION

B.S in Statistics

2015 - 2019

Ohio State University

Focused on statistical modeling, data analysis, and probability theory.

Completed coursework in regression analysis, machine learning, and data visualization.
