PROFILE

Aspiring data scientist with a strong foundation in machine learning and NLP. Experienced in building ML prototypes, analyzing datasets, and performing exploratory data analysis to support research projects.

WORK EXPERIENCE

MACHINE LEARNING INTERN

AI Research Labs

May 2022 - June 2023

Developed machine learning prototypes and proof-of-concept models. Performed extensive exploratory data analysis and data preprocessing. Supported NLP experiments for internal research projects, including text classification and sentiment analysis. Created visualizations and reports to summarize research findings.

EDUCATION

B.S.. in Computer Science

2019 - 2023

Stanford University

Focused on algorithms, machine learning, and data analysis. Completed coursework in AI, NLP, and statistical modeling.

SKILLS

Python,

Machine Learning,

Statistics,

Pandas,

NumPy,

NLP,

Deep Learning,

EDA
